**Question for NETWORK RAIL -** ***translation***

1. ***Councillor Robin Ward reports that the 'Llanbedr' signs have gone missing, following a recent meeting with volunteers.***
2. ***However, two new signs have been installed here, bearing only the word 'LLANBEDR'. It was my understanding that the words 'TALWRN BACH' were also supposed to be included!***
3. ***What about the platform — it is not long enough to accommodate the new trains passing through Talwrn Bach? Is any action going to be taken regarding this?***
4. ***Similarly, the shelter is not situated on a sufficiently solid foundation, which prevents us from installing a new shelter.***
5. ***Regarding the long-awaited barriers — is there any prospect of these being installed across the road?***
6. ***From a volunteer's perspective, the site is left in a mess — there are no bins.***
7. ***Grateful that the white line at the edge of the platform has been repainted, for safety reasons.***

***These are the same issues we raise every time we meet.***
***Thank you for any comments.***
