Existing non-historic timber doors with fanlight windows to be carefully removed.

Existing bowing wall to be carefully removed, with materials set aside to be reused where possible. Wall to be rebuilt and its height extended.

Unsympathetic 20th-century shop to be demolished.

Masonry infill to be carefully removed to reinstate the original opening.

Later additions including internal partition, wall linings, dropped ceiling and raised floor to be carefully removed to return G03 as a single space.

Species may include but not limited to:  
60% - *Galanthus nivalis*  
40% - *Narcissus 'Sweetness'*
  - Proposed shrubs  
No symbols, 5L pots.  
Species may include but not limited to:  
*Viburnum opulus* 'Compactum' (N\*)
  - Fernery (65m2)  
Allow for translocation of moss and lichen - refer to note below.  
8 no plants/m2, 2L pots.  
Species may include but not limited to:  
15% - *Asplenium scolopendrium* (N)  
15% - *Athyrium filix-femina* (N)  
15% - *Blechnum spicant* (N)  
25% - *Dryopteris affinis* (N)  
15% - *Polystichum setiferum* 'Hemtenhausen' (N\*)  
15% - *Polypodium vulgare* (N)
  - Coloured wall (14 linear metres)  
Allow for translocation of moss and lichen - refer to note below.
  - Climbers  
Refer to DH203-JCLA-DR-L-0007
- Note: The detailed planting design will include areas of translocated lichens and mosses as noted above. This could be through retention of locally sourced slate, already colonised by lichen and moss, to site and/or through grafting of moss and lichen sourced from the surrounding landscape to form new communities on site.
- This process will be carried out in collaboration with the ecologist, and through agreement with the local authority biodiversity officer at the next design stage and during implementation.

Do not scale from this drawing. Any discrepancies or omissions should be brought to the attention of the authors. Dimensions are to be worked on as prior to construction.  
To be read in conjunction with all relevant Architectural Services and Structural Engineer drawings.  
All existing site, tree and building information has been compiled from different sources.  
Refer to current revisions of all referenced files.

Notes:  
- Refer to ecologists information for detail on habitat features -  
To be read in conjunction with Soil Landscape Maintenance plan: DH203-JCLA-RP-L-6002  
- All new planted areas to allow for min. 300mm capping layer due to existing ground contamination. Subject to further surveys / detailed remediation strategy by Engineer.  
- Refer to Engineers drawings for earthworks, levels and drainage information.  
- (N) = native species, (N\*) = horticultural variety of native species

**KEY. BS: 5837/2012**

- Individual tree showing, BS:5837:2012 category, tree number and crown extent.
- Individual tree showing, BS:5837:2012 Root Protection Area (RPA).
- BS:5837:2012, Category A, High quality tree (SLE) < 40 years
- BS:5837:2012, Category B, Moderate quality tree (SLE) < 30 years
- BS:5837:2012, Category C, Low quality tree (SLE) < 10 years
- BS:5837:2012, Category U, Poor quality tree (SLE) < 10 years, or required to be removed to facilitate a development.
- Group BS: 5837: 2012 categorization and associated Root Protection Area
- Protective Fencing is accorded with BS:5837:2012
- Implement Terram Geostic and Terram Geocel
